

SUBINDUSTRY REVIEW PROTOCOL

As of June 2025

If a company disagrees with the assigned Subindustry classification, a company representative can request a review of the decision.

Please note, a review will not necessarily result in a change to a company's preferred Subindustry classification. Morningstar Sustainalytics' Research Team will review the details you provide and consider whether to change the classification based on the supporting evidence and according to our research methodology. Morningstar Sustainalytics reserves the right to follow our own methodology to determine Industry/Subindustry classifications.

Morningstar Sustainalytics considers a company's main source(s) of revenue to help determine the Subindustry classification. Please provide the information requested in the following form. This information is mandatory as part of the review.

Once completed, email the form to issuer.relations@morningstar.com
